

**UPDATE FROM ADMINISTRATIVE TASK TEAM**

As the Team responsible for the maintenance and up-keep of church building and grounds we wanted to give you a status report on projects planned for 2018. We have completed two major projects during the most recent 4 months. First was the renovation of Fellowship Hall. The second project is painting of the church sanctuary which was completed the latter part of March. These projects are being implemented as a part of the preventive maintenance schedule of the church physical plant. What we do is intended to keep the facilities and equipment in good condition by inspecting, detecting, and addressing issues before they develop into major failures. Thank you for actively participating in these efforts.

We are about to embark on a third major project to sealcoat the church parking lot to fill the microcracks, waterproof the surface, keep out the moisture which cause damage, to extend the useful life and ensure its visual appeal. Typically, parking lots should be sealed periodically every 2 or 3 years. This project will cost approximately \$17,000 to complete. Your participation and support is again requested to assist the Team with implementation. If you need more information please contact a member of the Team.

Spring has truly sprung!!! We are hopeful that everyone recalls our decision to implement the IBC landscape plan. If you volunteered to be responsible for a specific plot please be reminded that it is time to begin tending your selected plot. If for some reason you cannot continue to tend your selected plot please talk to a member of the Administrative Team or notify the office staff. Thank you.
